## OBJECTIVE

---

I am a passionate Java Web Developer with a strong foundation in both front-end technologies. I have developed skills in HTML, CSS, Java. I enjoy working in a team and always look forward to learning new things and finding creative solutions. I am excited to grow in my career.

## EDUCATION

---

<b>Chadalawada Ramanamma Engineering College</b> Master Of Computer Applications – 8.50 CGPA	<b>Graduated: 2024</b>
---	------------------------

<b>Sri Krishnadevaraya University (SKU)</b> Bachelor Of Computer Science(BSCs) – 82%	<b>Graduated: 2022</b>
---	------------------------

<b>Sri Krishnadevaraya University (SKU)</b> M.P.C – 8.32 CGPA	<b>Graduated: 2019</b>
--	------------------------

<b>ZPHS</b> SSC :- 80%	<b>Graduated: 2017</b>
---------------------------	------------------------

## SKILLS

---

**Programming Languages :** Java, C++ basics

**Frontend Technologies :** HTML,CSS,JavaScript basics

## PROJECT

---

- **A Multi-Objective Based Scheduling Framework for Effective Resource Utilisation in Cloud Computing**  
**Description:** To design a scheduling framework that optimizes multiple objectives such as resource utilization, task completion time, and cost in cloud computing environments.  
**Cloud Computing:**Provides scalable and on-demand computing resources over the internet  
**Scheduling:** Assigning tasks to resources efficiently.  
**Multi-Objective Optimization:** Balancing several objectives (like speed, cost, and resource use) simultaneously.  
**Benefits:** Improved resource utilization, Reduced job waiting time, Lower operational costs, Increased system throughput and efficiency

## HOBBIES AND INTERESTS

---

- Listening Music
- Playing Games
- Drawing
